Question:

How can **integrity** at the workplace be achieved?
Within SafiSan projects?

Some examples:

1. The **computer** made bought under the SafiSan Projects must be used by the WSP staff working on the SafiSan Project
2. The **tablet computers, GPS cameras and other goods and materials** should be given to the members of the Project Task Team who need them for their work
3. The WSP should prepare an **Asset Register** for all the goods and materials that were bought with SafiSan Project Funds

IMPORTANT: All SafiSan Project goods and materials should be used properly, for the intended purpose and by the people who do the work!!

Thank You!
